On Tuesday, February 10, at 6 p.m., the Museum of Military History, in cooperation with the Ukrainian-Austrian Association (UAA), invites you to the opening of the exhibition "Impressions of War - The War in Ukraine.": **Ausstellungseröffnung**. The exhibition will be shown until August 2.

Impressions of War - Der Krieg in der Ukraine

The installation uses photographs to depict the impact of the Russian war of aggression on the Ukrainian population. These are snapshots of civilians affected by violence and damaged civilian infrastructure, which are targeted daily by the Russian aggressors. The seemingly chaotic and disordered presentation aims to reflect the experiences of everyday life during the war and provide a concise picture of civilian life in wartime.
